we would also like to mention that there was a delay in starting these works due to the very reason that the island allocated to tourism development, packaged with the airport project (then Kodaanahutta in GaafuDhaal Atoll) had to be changed due to unsuitability for such development. It took more time than we expected to get the change approved by the Ministry of Tourism, Arts and Culture, which was finally done on the 8<sup>th</sup> of January 2012.....

we also note that we should be able to finish the construction of the Airport within 30 months stipulated in the Agreement, even with delays mentioned above. However, we sincerely request you to bring an addendum to the agreement following the Addendum to the Agreement we signed with the Ministry of Tourism, Arts and Culture, which we believe should be reciprocal to the Agreement

signed between us for the development of the Airport, since the whole tender was awarded by the Ministry as a packaged item.
